

VIRGINIA:

At a regular meeting of the King George County Board of Supervisors, held on Tuesday, the 15th day of March, 2022 at 6:30 p.m. in the Revercomb Building Board Room at 10459 Courthouse Drive, King George, Virginia:

PRESENT: Jeff Stonehill, Chairman
Cathy Binder, Member
TC Collins, Member
Annie Cupka, Member
Chris Miller, County Administrator
Kelly Lackey, County Attorney

REMOTE: Richard Granger, Vice-Chairman

0:00:00.0 Chairman: I call together the regular meeting of the board of Supervisors of King George County for this evening. Ms. Cupka, would you like to start out with invocation?

0:00:10.1 Annie Cupka: Yes, Mr. Chairman. Heavenly Father, we ask that you watch over all who gather here tonight to perform the business of our community. We ask that you give us grace and patience and allow us to make the best decisions we can for our community. And I'd especially ask for prayers for healing for all those who are sick, and I know, we have some constituents here who have suffered losses in the past week or so, and I would just ask that you welcome them with open arms. In your name, we pray. Amen.

0:00:55.3 ALL: I pledge allegiance to the flag, the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

0:01:14.5 Chairman: Thank you everyone. Mr. Miller, any amendments to the agenda?

0:01:19.5 Chris Miller: The only amendment, and Mr. Granger may take care of that, but at the adjournment, it indicates that you're adjourning to April 5th when you will be adjourning to tomorrow night, the 16th at 6:30.

0:01:34.2 Chairman: Correct.

0:01:34.8 C. Miller: Yes.

0:01:35.1 Chairman: I see that. Okay, thank you.

0:01:37.3 A. Cupka: Mr. Chairman?

0:01:38.1 Chairman: Yes.

0:01:39.1 A. Cupka: May I... Ms. Lackey, we have a member who is participating electronically. Is that correct? Don't we have to read a statement?

0:01:53.8 Kelly Lackey: We just need a brief explanation. I believe it's for personal reasons, so he has to give us what the personal reason is and his location.

0:02:03.2 A. Cupka: Thank you for your indulgence, Mr. Chairman.

0:02:08.5 Chairman: Mr. Granger, can you hear us?

0:02:11.8 Richard Granger: Yes, sir. Can you hear me?

0:02:12.9 Chairman: Yes, sir.

0:02:13.2 R. Granger: Awesome, I appreciate it. Thank you so much for giving me the opportunity to attend remotely. I am traveling for work, and so I'm out of pocket, I'm out of the region. So just for work, work travel. I'll be back tomorrow though for the budget work session.

0:02:31.7 Chairman: Very good. Thank you.

0:02:32.6 R. Granger: Yes sir, thank you.

0:02:36.9 K. Lackey: And if I may, we just need a physical location or approximate physical location from where he's participating.

0:02:44.4 R. Granger: I'm sorry. I'm in Suffolk, Virginia.

0:02:50.1 Chairman: Thank you. Okay, at this point I'm gonna open the floor for public comment. Comments will be limited to three minutes per person in order to afford everyone an opportunity to speak. If comments relate to a specific public hearing item, we ask that you offer those comments at the time of public hearing. Is anyone here this evening for public comment? Mr. Shelton.

0:03:26.5 Don Shelton: Now can you hear me?

0:03:27.4 Chairman: Oh yeah.

0:03:28.5 D. Shelton: A couple of things. One, to let everybody know that the Historical Society will have a meeting here this Thursday at 6:30. The topic of discussion will be the Virginia Indians. We have a couple of videos on it. Number two is, we do have a King George County Museum here in the county that's open on Thursdays and Saturdays. We do have all of the history. We have the

Black history, we have the Indian history, we have all kinds of history that we can pack into one little place. Elizabeth Lee spent over 25 years building that museum over there and we have a lot over there. So if you can come to the meeting on Thursday, we will welcome you. If you get time, come by and stop and see us at the little museum and see how much we do have packed in there. Thank you. Also, all of you guys, thank you for all the work you do for the county.

0:04:23.5 Chairman: Thank you, Mr. Shelton. Anyone else? Seeing none. Ms. Jordan, step right up.

0:04:36.8 Claudette Jordan: Good evening, I'm Claudette Jordan, 11773 Big Bear Lane, Lusby, Maryland. Mr. Chairman, good evening, board members, county administrator and attorney, thank you for the opportunity to address you. As president of the Ralph Bunche Alumni Association... Stall the timer. I would like to convey the excitement members feel to know that real progress and change is being made toward revitalizing the Ralph Bunche High School building. King George County's actions to secure the \$500,000 grant for roof replacement, submission of a request to apply for additional funds to repair the electrical system, and also, including the building on the county's list of properties to be evaluated for future use are all in the steps of the right direction. Our officers and members support the county's actions and we're working to continue this trend of forward progress. I feel I must make the county aware of a matter of concern to our association, which county officials may also find concerning. As we were recently working on and updating our media accounts, we came across a website, www.rb88c.org, that is soliciting donations to help us reach our milestones and provide the funding needed to create the Ralph Bunche Arts and Humanities Center. It goes on to say that their project is to "transform the Ralph Bunche High School building to create the Ralph Bunche Arts and Humanities Center." The website includes pictures of Ralph Bunche High School with no mention of the county's ownership of the building or that King George County had boarded a relationship with this entity a year ago in a letter from the county administrator dated March 4th, 2021. That this group is continuing to attempt to solicit donations and fundraise more than a year after the county discontinued any former relationship may be giving the false impression of a relationship to the county, as well as having the authority to transform the building that does not exist. Our association has several concerns with this matter, but mainly the very real misperception that the Ralph Bunche Alumni Association is affiliated with this group, when we are not. It worries us that members of the public, and specifically donors, may be under the false impression that this group is working with the county and with Ralph Bunche Alumni Association when they are not. It is our hope that the county will investigate this matter to protect the longstanding legitimate efforts the county, as well as Ralph Bunche Alumni Association are making to preserve the building and plan for its future use. Please know that our association values its relationship with the county, and our members fully support the Board of Supervisors in its current efforts regarding the Ralph Bunche High School building. Thank you again for the opportunity to address you.

0:07:55.9 Chairman: Thank you, Ms. Jordan. Anyone else for public comment? Yes, sir. Step right up. If you could state your name and address.

0:08:03.4 Jeremiah Lange: My name is Jeremiah Lange, I live at 14407 Hillcrest Drive. I came tonight regarding the proposed tax increase for property taxes. I saw that there was gonna be a discussion on that later tonight, based upon the comments online, and I just wanted to make it... So back when the... Couple of months ago, when they first sent out the letters proposing the increase in property taxes, there was a note saying, "You can contact the County Assessor, reach out to them

and then submit an appeal to the Assessor." So I initially reached out to the Assessor via phone per their requirements. I tried a couple of times, I left a voicemail at least once that I recall. Never got a reply back from the Assessor, so I ended up submitting an appeal. And then I only got back a note saying that my property value was going to maintain the assessed value that they had assessed it at. There would be no change and there was no comment as to why it was or was not approved or disapproved or any sort of change. And to me, the whole process regarding the change of property tax value is kind of a big black box. There was a comment saying, "Here's what your property value is." It did not appear to take into account the fact that it had basically doubled my property value since I purchased the home about five or six years ago now, back in 2015, so I guess about seven years maybe. And basically it was saying, it was right at 262 when I bought it, and now they're saying about half a million dollars. And so to me, there's a concern as to why it would jump that much, especially without any ability to get hold of the Assessor or to actually find out any detail as to what the breakdown was and why it was rated the way it was. Especially comparing to websites such as Zillow and everywhere else online, the range that they estimated was anywhere from 388 to about 470. And I submitted some of that documentation along with my appeal, and again, there was no sort of breakdown as to why that was or was not the case. That's the end of my comment. Thank you, sir.

0:09:55.1 Chairman: Okay, thank you. Anyone else for public comment? Okay. This time seeing none. Mr. Dines, anyone online? Did any board members get any correspondence that need to be read in? No? Mr. Collins, no? Okay. Alright, at this time we will close public comment and we'll move on to reports to members of the board. Ms. Binder?

0:10:53.2 Cathy Binder: Thank you, Mr. Chair. I wanna thank Mr. Shelton for coming out and telling in an advertisement for the museum for people to visit. Ms. Jordan, thank you for coming out. I know I've talked to you a lot about... Especially, I gave you all those yearbooks I scanned for the Ralph Bunche Alumni Association. Hopefully we can find the rest of the yearbooks, I only found 11. So hopefully... And I know your group has spent a long time looking for that building to be a museum of some sort to represent the history, the valuable history. Sir, I couldn't remember your name, I apologize. But we are looking at everything. You could go talk to Ms. Judy Hart and maybe she could give you some more clarification on your concerns with the property tax, but we have not set the tax rates yet. But if you wanna reach out to any of your Board Supervisors. I apologize, I didn't catch your name. And let's see, let me go back to my report. This week, I answered several constituents' concerns. I wanna tell you about a couple of them, because there might be other people in the community that have these concerns also. One of them, I had a constituent reach out about VDOT inmate work crew picking up debris on the main arteries and in neighborhoods. I reached out to our Sheriff and to David Beale from VDOT and got some more information and referred it on to constituent, but just to let the public know, these inmates are from this trustee work program that is highlighted in the VDOT supervisor's manual. This trustee status is prisoners who are not convicted of a serious crime, and this program has been in place for a while at no taxpayer cost. But I do understand the concern and have spoken to our Sheriff Giles and our VDOT representative about that, and I understand from Mr. Giles that it's been forwarded up the chain of command. And so, just to reach out, if anybody has any concerns, you can contact me. Also, I had concerns expressed from some of my citizens about noise and property damage from NSWC, and I just wanted to point out that for those that are new to the area or have concerns, you can contact NSWC DD Public Affairs at 540-653-8154. The NSA South Potomac Facebook page also has a weekly testing schedule, you can look up for more information. And then lastly, in a couple of days, I'll be touring the waste water plants to gear up for our combined work session. And

I wanna specify this, possible, I know there's a lot of social media scuttlebutt about talking and starting a discussion about the possibility of merging the service authority into a county department. And that's the end of my report. Thank you.

0:13:42.1 Chairman: Thank you. Ms. Cupka?

0:13:45.2 A. Cupka: Thank you, Mr. Chairman. I wanna start by thanking everyone for coming out. Mr. Shelton, thanks for the update on the Historical Society. We appreciate everything y'all are doing. Ms. Jordan, thank you for expressing your support for the steps that we've been trying to take. I know it's frustrating, we heard from a citizen at the last meeting that we're not doing enough, but we're taking it step by step, one step at a time, we're doing what we feel we can until we get that assessment back, that report. And I think it's... Is it Mr. Lange? I wrote down your address and I went on GIS real quick and looked it up, so thanks for coming out. I just wanna make sure you understand, all we're hearing tonight is with regard to setting deadlines for dates for when... Like a drop dead date for your ability to appeal to the Board of Equalization. So if you're not aware, you still have the ability to contact the commissioner's office and make an appointment to have your matter heard before the Board of Equalization as well. So if you haven't done that yet, I would certainly encourage you to do so. Thank you very much. Let's see, I attended the county budget work sessions Wednesday, March 2nd and Wednesday, March 9th. Thanks so much to staff for your work on crafting the budget process. I wanna congratulate the Sheetz-to-Sheetz run participants who competed and the volunteers who supported the event last weekend. I know that typically draws a number of hotel guests to our area, and I'm looking forward to, hopefully, at a future board meeting, Mr. Chockley will bring some after race data to us. And one last thing, I move to appoint Mr. Stuart Ashton to the Wetlands Board. Mr. Ashton resides on River Front property here in our community and is very active in conservation efforts.

0:16:02.1 C. Binder: Second.

0:16:04.8 Chairman: All in favor?

0:16:05.9 C. Binder: Aye.

0:16:06.2 TC Collins: Aye.

0:16:06.5 A. Cupka: Aye.

0:16:07.1 R. Granger: Aye.

0:16:09.8 A. Cupka: And that's all I have. Thank you very much, Mr. Chair.

0:16:13.4 Chairman: Thank you. Mr. Collins?

0:16:15.0 TC Collins: Good evening. Mr. Shelton, thank you for coming out and providing the information on the Historical Society. Mr. Lange, I wasn't sure whether you had gone to the Board of Equalization or not. Okay. So Ms. Cupka is right, you still have time to appeal your assessment through the Board of Equalization. They can either keep your assessment, not your tax, your assessment the same, they can raise it or they can lower it. So that's the three things they can do and they don't have an explanation, they just give you a verdict on the one sided information you

provide them. So just for your information. Ms. Jordan, I was wondering the same thing. I've been understanding that there's another group that was... Came in front of the board a year or two or whatever it was ago, and they didn't go with that plan, the board didn't. And I was wondering the same thing, why is another organization raising funds for Ralph Bunche? So that's the question I would like to have answered myself. So thank you for coming out.

And my last thing is, last meeting, I submitted a FOIA request to obtain information on communications on the Water Authority and the Board of Supervisors. I filed a waiver of fee on the fifth day after the request was submitted. I received a letter from the county administrator that a fee for records would be \$439.30. I submitted the fee of \$439.30 from my personal funds. I questioned how an employee of the board can set charges for a board member and not let the board vote on the waiver. I also questioned that an email was sent to all the people that I requested information from will be self-reporting that information back to the FOIA. I believe this is inherently problematic and there should be a third-party facilitation of that. Thank you, Mr. Chairman.

0:18:38.1 Chairman: Thank you, Mr. Collins. Mr. Shelton, thanks for the update and... On the museum and everything. I appreciate that. I also forgot about the Thursday evening that they were there, so it's a good reminder. Ms. Jordan, thanks for coming. And thanks for coming all the way from Maryland to support Ralph Bunche and I'm glad that you're happy with the roof replacement and everything else. Mr. Lange, you're a fast talker. I got the Jeremiah part, I didn't get the last part. But yes, it's a broken record and we've been hearing that over and over. I myself also never got a call back from the assessor either, so we're in the same boat. And they... Like Mr. Collins said, we haven't heard from him and as Ms. Binder said we haven't set the tax rates. So if it's something that we need to do, if we need to lower them, I don't know if we will, but we'll do what we can. That whole assessment was pretty much a mess, so we'll see what we can do about it but thanks for coming out. And I also attended the last couple of work sessions. We're getting closer to a budget for us for next year and also, to say thank you for all the folks that did the sheets run, what an awful day to do a run, but I think last year we were there and it was 70 degrees and sunny and this time we were fighting snow, so thank you for everybody that participated in that, and that's all I have. Moving on to consent agenda, do we have a motion? Oh, I'm sorry. Mr. Granger?

0:20:28.3 R. Granger: I thank you... I just say thank you to all those who came out and provided comment, I'll provide a more thorough report next time at the meeting personally. Thank you.

0:20:39.2 Chairman: Sorry about that, Mr. Granger, I looked to my right and you weren't there, I'm sorry.

0:20:42.2 R. Granger: No worries.

0:20:44.2 Chairman: Now moving on to the consent agenda, do we have a motion?

0:20:49.0 C. Binder: I make a motion to accept the consent agenda as presented.

0:20:53.0 A. Cupka: Second.

0:20:56.2 MC: Motion properly seconded, all in favor?

0:20:58.5 C. Binder: Aye.

0:20:58.5 TC Collins: Aye.

0:20:58.6 A. Cupka: Aye.

0:21:00.5 R. Granger: Aye.

0:21:00.6 Chairman: Chair votes aye. Motion passes. Thank you. Moving on to county official's report. Mr. Jones, step right up.

0:21:20.5 Randy Jones: Good evening, Mr. Chairman and colleagues. First, before I get into the report, just a little quick report on our office. We anxiously await finalization of the budget, so we can get on with printing the tax bills, so I just politely encourage or ask, as soon as that is done, if our office can just be notified of that, so we can just get printing. Sometimes that process goes a little bit long and we aren't able to get the bills out in time for our customers, so just a quick little reminder on that. Our February report, we began the month with \$33,180,508.13. We had \$11,921,115.83 in receipts. We dispersed \$12,113,861.97 leaving us with an ending balance of \$32,987,761.99. This total has not been reconciled, there is a little bit of an issue with the school payroll entry that hit the general ledger, but finance department is aware of it, they're working with BAI help desk to resolve that, and as soon as that has been resolved, then the month of February will be able to be closed. And that's all I have. Any questions?

0:23:22.0 Chairman: Any questions for Mr. Jones? Alright, thank you, sir.

0:23:26.8 R. Jones: Thank you. Appreciate it.

0:23:29.0 Chairman: Mr. Miller, can you see that... Make sure those get into the minutes?

0:23:31.5 C. Miller: Yes, sir.

0:23:36.6 Chairman: Sheriff Giles?

0:23:46.0 Sheriff Chris Giles: Good evening, Mr. Chairman and members of the board, Mr. Miller, Ms. Lackey. I come before you tonight to advise you that on March 8, 2022, the King George County Tow Board convened and voted to raise the rates for towing for the law enforcement rotation. Back in 2020, the King George County Tow Board set the rates for all wreckers that towed from the law enforcement rotation. This was done so all the wrecker services and the law enforcement rotation would have the same rates, and I can quite honestly tell you that by doing that it minimized the complaints about the rates altogether from the customers. Most recently, some of the tow company owners approached the Tow Board and requested a rise in the fees due to the inflation and the rise in gas prices. I have added a copy of the new rates in your packet. Accident tows have been raised from \$300 during working hours to \$350 for after hours, and then after hours goes from \$350 to \$400. The large-duty wrecker tows were raised from \$550 to \$600. Daydry went from \$15 a bag to \$30 a bag, and these rates we checked around are all comparable to the surrounding jurisdictions that have the fixed rates as well. So I just wanted to make you all aware of that and can answer any questions if you have any.

0:25:10.8 Chairman: Any questions? How many wreckers do we have on?

0:25:14.5 Sheriff Giles: Eight.

0:25:15.1 Chairman: Eight.

0:25:16.2 Sheriff Giles: Eight regular conventional and two heavy duty.

0:25:23.6 Chairman: Gotcha, okay. Nothing else?

0:25:24.5 A. Cupka: Mr. Chairman, may I ask a question of the county attorney relative to this?

0:25:30.0 Chairman: Absolutely.

0:25:30.4 A. Cupka: Ms. Lackey, do we or the Tow Board, or does anyone have to make public advertisement like publish the new rates in the newspaper or anything like that?

0:25:43.4 K. Lackey: They don't need to publish their rates, 'cause their meeting was an open public meeting, but I think for sake of public notice, I think it's a good practice that we're having the sheriff report it to the board.

0:25:53.9 A. Cupka: Thank you. Would there be consensus of the Board to direct staff to also have it posted on the county website?

0:26:03.8 Chairman: Sure.

0:26:04.6 A. Cupka: Thank you very much. Thank you, Mr. Chair, thank you, sheriff.

0:26:07.8 Chairman: Thanks, Sheriff Giles.

0:26:08.9 Sheriff Giles: Mr. Granger, do you have anything?

0:26:12.8 Chairman: Mr. Granger?

0:26:14.6 R. Granger: I do not. Thank you for the opportunity but I'm good, thank you.

0:26:16.0 Chairman: Thanks.

0:26:19.4 C. Miller: Excuse me, Mr. Chairman, we skipped the approval of the minutes. I'm sorry to tell you that, we need to put that in bold, I guess, 'cause it's kinda hidden in there.

0:26:38.5 Chairman: We went right over it.

0:26:42.4 C. Miller: So if you would amend the agenda to go backwards.

0:26:54.7 Chairman: We moved for the whole consent agenda, isn't the minutes are also included in that as well?

0:27:04.1 C. Miller: That's correct. Yeah, that's correct. Yeah.

0:27:04.2 C. Miller: Somebody in the audience had pointed it out to me, so that was why I just wanted to mention it, 'cause I thought the same thing.

0:27:14.5 Chairman: Okay. We went right on through that and it was all in the consent.

0:27:22.4 K. Lackey: It's included in the consent agenda items as Point 9 of 9.

0:27:30.1 Chairman: Okay, thank you for the clarification. Report for the county attorney now. I lost my train of thought here. Ms. Lackey.

0:27:49.7 K. Lackey: I do have several items tonight to provide updates on, the first being two new notices were received from Dominion Power. The first was very brief, it was a two-page, which for Dominion Power is pretty short. It's a notice dated February 25th of an intent to file an application on or before April 29th for the approval of providing broadband capacity to internet service providers in unserved areas. There's no description of what geographic area that was, so I reached out to the Economic Development Director so that he can track that issue, once a filing is made in April to see who that might affect. May also have a notice to have a... In April, they'll also possibly be petitioning for another rate increase for that project. The second notice from Dominion Energy is dated February 17th, it is for approval of cost recovery for cost overruns at two power stations and a new additional project at a third power station, those projects are associated with state and federal environmental compliance. The cost overruns for the two power stations look to be about 18 million, the new project at the third site is at a cost of approximately \$119.7 Million.

So in the agenda packet, there's a public notice of an intent for an evidentiary hearing on July 13th. Dominion would be proposing to recover rates from rate payers from November 1st, 2022 to October 31st of 2023. For a household that uses 1000 kilowatt hours of electricity per month, it would be an approximate increase of \$0.70 per month, and interested parties may submit written comments on or prior to July 12th. The next item I have is a brief update on retail marijuana sales. In the previous general assembly session, there was a bill that was passed that would have authorized a local referendum on whether or not to allow retail sales of marijuana, but that bill needed to be re-enacted this session, which just ended and it was actually killed, it didn't move forward. So as of right now, retail sales of marijuana will not be happening in 2024 and also there is currently no authority for a local referendum on retail sales. Now, that could change in the next legislative session, but that's the current status.

I also wanted to give notice of a possible change to the hunting ordinance. Specifically for some time now, King George has allowed muzzle-loaded rifles to be used during deer hunting season, but not other kinds of rifles, so the public can look for a future public notice likely to be advertised prior to an April meeting that would allow hunting with rifles of a caliber larger than a 22. It would require that the person, unless they are a disabled hunter, who has the appropriate licensure for a disabled hunter, they would need to be in a tree stand, they'd have to comply with all other law, and they could only have a loaded rifle when they have actually... When they're actually positioned in the tree stand. So that's, again, just something perspective just for folks to be aware of and to watch out for future public notices on that.

I also wanted to mention, I believe all the members of the board are aware that the Planning Commission on March 8th, they took up the issue of a Planning Commission member who made some comments on social media that many found objectionable, and thought were a contrary to the Commission's ability to act in an impartial manner. The Planning Commission by a vote of five to three recommended that the Board of Supervisors consider dismissing the Planning Commission member on the basis of malfeasance. That would require a public hearing and opportunity for that

person to be heard. If there's interest, I'd be happy to provide legal advice either in a closed session at this meeting or a future meeting, or I could also do that by a confidential legal memo for members of the Board, if there's interest in that.

And then lastly, as was partially discussed in the public comment, there is a matter concerning the Board of Equalization on the agenda tonight. I just wanted to mention that contrary to my remarks at the prior meeting, I was recommending that a deadline be set for appeals to the Board of Equalization by the end of April, and for the Board of Equalization to complete its work by the end of May. In looking at the notice requirements, I've slightly revised that, so in the agenda, the item actually proposes that appeals be made prior to the end of April, but in order for the Board of Equalization to complete its work, that a deadline not be set until the end of June rather than the end of May. And that's all I have.

0:33:25.4 Chairman: Thank you. Mr. Granger, any questions?

0:33:31.5 R. Granger: No questions, I'm good. I wouldn't mind having a closed session though at some point to discuss that matter.

0:33:40.2 Chairman: Okay, thank you. Board members, questions? Ms. Cupka?

0:33:46.9 A. Cupka: Thank you, Mr. Chair. Ms. Lackey, at our next regular meeting, 'cause we have a bunch of meetings coming up. At our next regular meeting, could you provide us in your county attorney report, an update on the status? I believe in maybe December, Mr. Bueche and I sought and obtained consensus of the board to have the Golf Cart Ordinance revisited. So if you could provide the board with an update on that at the next... I guess it would be the first meeting in April, I would appreciate that. Thanks very much.

0:34:19.2 K. Lackey: No problem.

0:34:22.0 Chairman: Thank you. Mr. Collins?

0:34:25.7 TC Collins: No questions, just a couple of comments. On the Dominion general power notices and wanting to recover their fees of that amount, I would think that they would... Be part of their business plan to recover those fees and maybe spend less on action from the liaison committee. The Hunting Ordinance, I would request the Chairman maybe bring forth some experts on the issue, Department of Inland Game & Fisheries. I've received emails from Mark Fyke, who is a gentleman in the community, who is an outstanding teacher and community man and a gamesman. It's always been the rule that on this side of the Blue Ridge, there's no rifles because of the topography being a flat land. I understand through the county attorney that some of the counties have changed that to allow rifles. I would like some information from maybe the sheriff and the Planning Commission in regards to that or a public hearing on that.

0:35:58.5 Chairman: Okay, we can try to get 'em... Will we have enough time, Mrs. Lackey, between the second April meeting and the first of May for the state?

0:36:15.0 K. Lackey: So it would need to be enacted in April at one of the April meetings. We'd have to get a representative available for one of those meetings.

0:36:24.1 Chairman: Okay. Mr. Collins, if we're gonna have this at a public meeting, say the first

of April, due to timing for the State, I've also spoken to Mr. Fyke numerous times and reps from DWR, Sheriff Dempsey, Sheriff Giles, they're all in support of it. So I was gonna have them all come whenever we have the public meeting. Is that gonna be enough time for you or would you like to reach out to them personally?

0:36:55.9 TC Collins: If you could send me the email or other type of correspondence that they agreed to that, I wouldn't have any problem if our law enforcement community is in favor of that. I just wanted to know whether they were or not.

0:37:09.2 Chairman: Sure. I can also give you their emails or phone numbers if you'd like to speak to them directly but...

0:37:15.7 TC Collins: You've been in communication with them, you can just send me the information they provided you.

0:37:20.8 Chairman: Absolutely. Will do.

0:37:26.3 TC Collins: Thank you.

0:37:27.5 Chairman: Anyone else?

0:37:27.8 C. Binder: Yes. I have a question, Mr. Chair. Ms. Lackey, I just wanna... For Dominion, I had written down, when I read my packet, about their broadband capacity expansion, I would like to know a little bit because the definition of underserved can be many different definitions depending on who gives you the definition. So I was wondering, are they gonna expand some of the work we've been doing with them? So I'd like more clarification on that.

0:37:53.7 K. Lackey: Yeah, I'll calendar the date. I believe it's April 29th that they'll file something. So we'll have some more information then.

0:38:00.4 C. Binder: Thank you.

0:38:04.8 Chairman: Okay. Thank you, Ms. Lackey. Moving on to our public hearing. King George County Board of Supervisors will now hold a public hearing that has been properly advertised to receive public input regarding an ordinance to set deadlines for the Board of Equalization, Appeals and Deliberations. I will first ask for the staff report and then I will open the floor up to public comment. Public comment is limited to three minutes per speaker in order to afford everyone an opportunity to speak. Please state your name and address before you comment. Upon the completion of public comment, I will bring the matter back to the board for consideration. The board may or may not take action tonight depending on information received during public comment. Ms. Lackey, I guess, are you presenting this or...

0:39:10.9 K. Lackey: Sure, I'd be happy to. There is an optional but not mandatory authority whereby the governing body can set deadlines for the submittal of an appeal to the Board of Equalization, and also there's an optional authority to set a deadline for the Board of Equalization to complete its deliberations. I could not find that that was done for the last general reassessment. However, eight years ago, deadlines were imposed and those deadlines were at the end of April and the end of May. So the current version, as I explained it in my remarks, proposes end of April for

submittal of appeals and end of June for deliberations of the Board of Equalization, and that's because that there are some notices that require 45 days notice in some instances. So if someone were to wait till the last minute to file the appeal in order to allow 45 days before their hearing before the... For the hearing before the Board of Equalization, I'm suggesting the June date rather than following the pattern from eight years ago.

0:40:30.0 Chairman: Okay, thank you. Now, I will open the floor for public comment. Anyone does care to speak on this? Seeing none, Mr. Dines, anyone online? Has anybody received any written statements? Okay. Do we have a motion to... Sorry. And so with that, I can close the public hearing. Any questions from the board members? Mr. Granger?

0:41:23.4 R. Granger: No, sir.

0:41:24.6 Chairman: Okay. Do we have a motion to move forward on that?

0:41:32.2 A. Cupka: I will move to adopt the ordinance establishing deadlines for submittal of landowner applications for equalization of real estate assessment to the King George County Board of Equalization and for the Board of Equalization to complete its deliberations on all applications as presented.

0:41:51.4 C. Binder: Second.

0:41:53.1 Chairman: We have a motion properly seconded, any discussion?

0:41:57.2 TC Collins: What was the date? Do they have it in mind? I didn't hear that in your motion.

0:42:04.1 A. Cupka: May I, Mr. Chair?

0:42:06.8 Chairman: Sure.

0:42:10.3 A. Cupka: Yeah, so I did read it as presented. So as it was presented, it is... Let's see. Ordained that April 30th, 2022 shall be the deadline by which applications for equalization of assessment shall be filed with the Commissioner of Revenue for hearing by the King George County Board of Equalization. And be it further ordained that June 30th, 2022 shall be the deadline by which the King George County Board of Equalization shall finally dispose of all timely applications.

0:42:45.7 Chairman: Alright, we have a motion properly seconded, and we will do a roll call vote for this. Ms. Binder?

0:42:56.7 C. Binder: Aye.

0:42:58.3 Chairman: Mr. Granger.

0:43:03.4 R. Granger: Aye.

0:43:05.3 Chairman: Ms. Cupka.

0:43:06.1 A. Cupka: Aye.

0:43:07.5 Chairman: Mr. Collins.

0:43:08.1 TC Collins: Aye.

0:43:09.0 Chairman: Chair votes aye, motion passes. Alright, next step. Presentations are in the reports, community health assessment presented by Dr. Obasanjo. Welcome, sir.

0:43:30.0 Olugbenga Obasanjo: Thank you. Good evening. My name is Olugbenga Obasanjo, I'm the Health Director for the Rappahannock Area Health District. I will use this opportunity to introduce myself. I planned to do this earlier on in the year that I have been here. In 28 days, I would have been at this job a year. So technically, I'm still new and I beat the year mark in introducing myself. And I want to take this opportunity to introduce a topic other than COVID and what we'll be doing in public health and sort of how we wanna be your strategic health partner in public health for the county and for the commonwealth. And with that, I will introduce my colleague, Ms. Allison Balmes-John, to talk about our community health assessment.

0:44:27.1 Allison Balmes-John: Thank you.

0:44:28.0 Chairman: Can you all just make sure that microphone is on? We can hear you clearly, but we just wanna make sure the public can hear you.

0:44:32.5 A. Balmes-John: Can you hear me okay?

0:44:34.5 Chairman: Is that green light on there?

0:44:35.7 A. Balmes-John: It's on.

0:44:36.9 Chairman: Okay.

0:44:37.0 A. Balmes-John: I can adjust a little bit.

0:44:38.1 Chairman: There you go. Thank you.

0:44:39.3 A. Balmes-John: Is that better?

0:44:39.6 Chairman: Yes.

0:44:42.2 A. Balmes-John: Sure. Great. Can I have the next slide, please? Wonderful. So I will be walking us through what has taken place so far with the community health assessment as well as the next steps as we head into the Community Health Improvement Plan, kind of why we carried out this process, a snapshot of some of the findings that were uncovered specific to King George County, and then of course, wrap up with next steps.

Next slide, please? So this project was completed as a joint effort between the Rappahannock Area Health District and Mary Washington Healthcare. We did have about 75 additional community organizations who participated in some way in this process, several of which were specific to King

George County. It meets RHD's requirement for accreditation as we're planning to pursue public health accreditation within the year, and it also meets Mary Washington Healthcare's requirements for the IRS as a non-profit hospital. For community organizations, something that's gonna be really helpful for grant applications, it's a nice concise place of data that they can point to. And then probably most importantly, it's helping us to identify and address some of the important health issues that we're seeing in the community. There were four different assessments and data collection tools that were completed through this process, a community survey, review of some quantitative data, what's known as a local public health system assessment and then a Forces of Change Assessment, which is very conversation-focused. So I'll give a snapshot of what we found from each of those. This had been synthesized into a community health assessment report, which is currently available for public comment on our website and will be available through the month of March. And then later in the meeting, I'll talk more about... Or later in the brief presentation, I'll talk more about how this will be put into action in the Community Health Improvement Plan or the CHIP.

Next slide, please. So we collected survey responses from about 2000 residents across Planning District 16. These show some of the responses that we received, some of the questions we received responses from King George residents. You can see that when we were asking about the most important health issues that community members are facing, mental health problems arose as the top issue, followed by COVID-19, and then finally by alcohol and drug use. When we asked about What would most improve quality of life, affordable housing came up as number one, followed by mental health and substance abuse services and then followed by good jobs in a healthy economy. Several other questions were asked as well, those are all included in the trial report itself. When it came to secondary data, and my secondary data, I mean data from a lot of other nationwide reporting tools and surveys, we saw several strengths for King George County, several of which are listed here. We see higher rates than the state and then the Planning District when it comes to adults who are insured. We also see that King George performs really well on education metrics, which is awesome. Several areas for improvement were identified, these include... We see relatively low ratios of providers to the overall population, and you can see some of what those numbers look like in the chart there. Throughout the planning district, we do see pretty high rates of lung cancer as well as binge drinking. King George specifically, we saw a large percent of disconnected youth, which is young people who are not in school or employed. And then we did see pretty high rates of low birth weight births, especially in the Black and African-American community. This is where we really saw some health inequities. For Planning District 16 as a whole, leading causes of death are heart disease, cancer and accidents and unintentional injuries. I will make a note that this data predates COVID-19 for the most part. We are actually awaiting later this month, that we'll start to see some of that 2020 data coming out, so we'll start to see some of those pandemic impacts. Courses of Change Assessment, I mentioned was a little bit more conversation-focused. So this is not necessarily data that we're gonna be able to collect from something like a nationwide survey or even from a brief online survey with community members, but we're able to see some of those themes that we know are impacting health in the community. So things that came up, and you'll start to see some themes here, a lack of access to mental health services, challenges when it comes to transportation.

Just to note that Medicaid expansion has taken place since some of this data was available and that's impacting things like insurance rates, cost of living, affordable housing, and then lots of conversation about some of these ripple effects of COVID-19 where we're not talking about the infectious disease itself, but we're talking about things like mental health, isolation, economic impacts, that sort of thing.

We can go ahead and go to the next slide in the interest of time. Our last fourth assessment was a

local public health system assessment. I bring this one up because I think sometimes when people think public health, they might first think the Health Department alone, but there's really a number of organizations that play a role in the overall health of our community, including the Health Department, but also hospitals, law enforcement, parks and rec, neighborhood associations, nursing homes, all of these major players who we tried to get involved in this process. We went through a scoring tool of how we're doing in delivering what's considered essential public health services. You can see that there's, in the green, several areas where we perform pretty strongly. Our lowest point in terms of scoring was on developing policies and plans that support health. So this is really something that we're keeping in mind as we head into this health improvement planning process and are trying to address some of these issues that have arisen.

Next slide. So we spent quite a bit of time sorting through all of this data, kind of identifying some of those top prioritized issues that need to be addressed in our community. Landed on these top eight, access to healthcare, affordable housing, chronic disease, education, infant and maternal care in the African-American community, mental health, obesity and substance abuse. What we'll be doing with this list of prioritized issues is ultimately narrowing it down to three with the help of other community organizations as well as community members to really be able to hone in on three of these issues we wanna take action on.

Next slide. So as I mentioned, that report is currently available, if you're interested in digging more into the data, happy to have more conversation with folks as they do that. We will be having... We will be launching the community health improvement planning process in April, and that first meeting will take place on April 5th from 12:00 PM to 2:00 PM. It is open to the public and we will have... We're aiming to have registration for that open by the end of the week. At that point, we'll be selecting those top three issues that we'll be taking action on and developing a plan to address some of those goals, that that CHIP or community health improvement plan is finalized in July and we'll have the next three years or so to really take action on that and make some improvements on some of these health issues. There will be funding available for local community organizations who decide to implement some strategies surrounding those issues. And last but not least, I'm really happy to connect with any of you or any members of the public on some of these findings in the overall background. Thank you.

0:51:54.7 Chairman: Thank you. It's nice to hear something besides COVID out there. So any questions?

0:52:04.7 C. Binder: I have a question, Mr. Chair. For this CHIP program, what spurred it on? Was there a law, an act, or what brought it about?

0:52:15.9 A. Balmes-John: Great question. So there's no law requiring it. It's something that many health departments across the nation are doing. As we're looking at pursuing public health accreditation, it is a requirement for that process, so that's really kind of was our starting point in really wanting to carry this out in the midst of COVID-19.

0:52:37.1 C. Binder: And then in the end, when you come up with a plan, what... I saw a small goal but what is your ultimate goal? You won't be able to solve all of the problems, but...

0:52:48.8 A. Balmes-John: Correct. I think that's a really great way to kind of manage expectations about what this will be able to do. Our goal is... I'm under no illusion that we'll be able to solve all mental health problems for all of Planning District 16, but our goal is to nudge the needle, and so kind of start to have some programs and policies and strategies for addressing some of these issues

and just improve quality of life that much more for the residents of Planning District 16.

0:53:11.6 C. Binder: Thank you.

0:53:12.6 A. Balmes-John: Thank you.

0:53:13.5 Chairman: Ms. Cupka?

0:53:16.7 A. Cupka: Thank you, Mr. Chair. Thank you both for coming out tonight. I had a question. Mr. Dines, could you go back? I think it's two slides, the one with the... Yep, that one right there. Thank you. So can you tell me, is this... When it says "local public health system assessment", is this just for King George County, or is this for the entire Rappahannock Area Health District first?

0:53:42.0 A. Balmes-John: Great question. When we were approaching this project, we really wanted to have this local focus where we could. This particular assessment was focused on all of Planning District 16 or the whole health district, in part because some of these players, the way we're structured, we serve the whole health district, same with CSP, Planning Commission, folks like that. So this is looking at overall Rappahannock Area Health District.

0:54:07.9 A. Cupka: Thank you. And then my other question is, you have some averages there, what... Is it out of five or out of 10? Or what is it out of? How many points could you have gotten and that's what the average was?

0:54:23.8 A. Balmes-John: Great question. It's out of five. A scale of 1 to 5.

0:54:25.6 A. Cupka: Okay, thanks very much. Thank you, Mr. Chair.

0:54:30.3 Chairman: Ms. Collins? Mr. Granger?

0:54:34.4 R. Granger: No, sir.

0:54:36.0 Chairman: Okay, thank you. You did mention some of your other stakeholders or partners are up there that you were doing this work with. Who are those folks up in the region?

0:54:48.1 A. Balmes-John: Sure. I'll just mention a few. So Mary Washington Healthcare and then Rappahannock Area Health District were kind of the big drivers behind this. We did have community services board, members of various school districts, including somebody from King George. We had several faith-based leaders. We tried to gather local organizations who are focused maybe on specific populations like NAACP, Lucia Ministries... I'm drawing blanks. I can provide the whole list. It's actually available in one of the appendices of the report as well.

0:55:20.3 Chairman: I was just curious about who the folks up there you were all working with, and like you said, just the different groups of folks. Okay. Well, thank you very much for coming out and presenting.

0:55:30.0 A. Balmes-John: Thank you.

0:55:40.1 Chairman: Alright, moving on to action items 3-11, Department of Economic Development and Tourism, Tourism Advisory Committee application. Ms. Wilson, how are you?

0:55:51.8 Kimberly Wilson: I'm good. How are you? Good evening, Mr. Chair, members of the board. My name is Kimberly Wilson, and I am with the Economic Development Tourism Office. Now I'm presenting the first of three applications for funding through the tourism fund. Let's see, tourism funding application for King George County Independence Celebration. Parks and Rec is requesting \$38,000 for the King George County Independence Celebration. This event was held twice, once in November 2020 as part of the 300th celebration, and again in July of 2021. This is a family-oriented event of the Saturday after the 4th of July. This encourages people to attend a local event that includes music vendors, food trucks, ending with a fireworks display. TAC recommends the board approve \$38,000 funding for the King George County Independence Celebration and staff agrees with TAC's recommendations.

0:56:54.6 Chairman: Okay, thank you. Any questions for Ms. Wilson? Mr. Granger?

0:57:02.8 R. Granger: No questions.

0:57:05.8 Chairman: What was it last year? \$36,000, I think.

0:57:09.6 K. Wilson: Last year they asked for \$40,000.

0:57:14.3 Chairman: \$40,000? Okay.

0:57:14.4 K. Wilson: Staff does have one recommendation. This application would come from the tourism fund balance.

0:57:24.6 Chairman: Okay. Thank you. Do we have a motion?

0:57:33.3 C. Binder: I'll make the motion. I make a motion that the Board of Supervisors approve \$38,000 funding for the King George County Independence Celebration coming from the tourism general fund.

0:57:45.1 A. Cupka: Second.

0:57:48.0 Chairman: We have a motion properly seconded. Any discussion? Ms. Wilson, is it just the same group from last year, the fireworks folks?

0:57:57.4 K. Wilson: My understanding, yes.

0:57:58.5 Chairman: Alright. Mr. Minor shaking your head, a great show. So we have a motion properly seconded. All in favor?

0:58:05.4 C. Binder: Aye.

0:58:05.9 TC Collins: Aye.

0:58:06.4 A. Cupka: Aye.

0:58:08.2 R. Granger: Aye.

0:58:09.5 Chairman: Chair votes aye. Motion passes. Thank you.

0:58:13.9 K. Wilson: This is tourism funding application, Preservation Northern Neck and Middle Peninsula, Inc. Preservation Northern Neck and Middle Peninsula is requesting \$1500 in funding to publish a second edition of its 2011 book, Historic Sites of Virginia's Northern Neck and Essex County, the Guide. King George County previously contributed \$1500 to the first publication of this edition. The new edition will contain places that were overlooked from the last publication. After review, the TAC recommends the board approve \$1500 funding for the book, Historic Sites of Virginia's Northern Neck and Essex County plus an additional \$300 for the purchase of books that can be redistributed by the TAC to local businesses and hotels that cater to tourists. Staff agrees with TAC's recommendations.

0:59:07.2 Chairman: Okay, thank you. Any questions? Alright. Seeing none, move a motion.

0:59:18.6 A. Cupka: I'll move to approve the tourism funding application for Preservation Northern Neck and Middle Peninsula, Incorporated in the amount of \$1800.

0:59:30.9 C. Binder: Second.

0:59:31.5 Chairman: We have a motion seconded. Any discussion?

0:59:37.4 A. Cupka: Yes, Mr. Chair.

0:59:38.6 Chairman: Yes, go ahead.

0:59:39.9 A. Cupka: So I just wanted to share, I did a little bit of background. I looked this book up, I found it on Amazon for sale, but there aren't any new copies, they're all used, so they just don't have any more new copies to sell. And there were a number of comments from, I guess, folks who had purchased the book and had actually come from other places, like not necessarily Essex County or King George or wherever, to do driving tours, just like it suggests in, just like what the book suggests. So it seems... It looks to me like it would be a worthwhile expenditure. Thank you, Mr. Chair.

1:00:28.4 Chairman: I also found that on Amazon as well, so I get that same information. And you can also get it on Kindle as well. You can get a nice download with Kindle, and yeah, they had great recommendations, so... Where were we? Seconded the motion, and all in favor?

1:00:44.4 C. Binder: Aye.

1:00:47.5 TC Collins: Aye.

1:00:48.1 A. Cupka: Aye.

1:00:48.9 R. Granger: Aye.

1:00:49.2 Chairman: Chair votes aye. Motion passes. Thank you.

1:00:58.7 K. Wilson: And the final funding application is for Doors to the Past: A King George Tour of Historic Sites. James Madison Belle Grove Foundation is requesting \$10,015 for marketing from the tourism fund for the Doors to the Past: A King George Tour of Historic Sites tour. This tour is designed to bring tourists to King George County using the Garden Week format but focuses it on history and historical locations within the county. This is a new event which will be a week-long from May 8th through the 15th. Money requested will be used for promotions and printing of maps. Proceeds from this event will be donated to Love Thy Neighbor and the local King George County Animal Shelter. After review, the TAC recommends the Board of Supervisors approve \$10,015 funding for the Doors to the Past: A King George Tour of Historic sites. Staff agrees with TAC's recommendations.

1:01:56.9 Chairman: Any questions? So this is the first time, right? And was this also the one that's going through other historical sites in the county or was it just at Belle Grove?

1:02:19.4 K. Wilson: It is... Right now they have 13 participating sites. Ms. Darnell is here if you'd like to ask her some additional questions about it.

1:02:29.3 Chairman: Just... I guess just that answer. I see you shaking your head no. Is it just Belle Grove this year? No. Okay. Can you step up and tell us who and where?

1:02:44.1 Michelle Darnell: So thank you for taking this up on the board today. Hello to everyone. I'm Michelle Darnell with Belle Grove Plantation, but I'm also with the James Madison Belle Grove Foundation. And I'm coming before the board today to ask for help putting on this historic tour. This tour was formatted according to the Historic Garden Week, and we have reached out to multiple places within the county. We currently have Belle Grove Plantation, Belle Plaine, Cleydael, Estate at White Hall, Bleak Hill Farm. Backporch is gonna be putting an exhibit on for the iron mine that's down near them. Ralph Bunche is gonna be opened... Not open, but the grounds will be only. These are grounds only. Emmanuel church, Lambs Creek Church, St. Paul Church, St. John's Church, Office Hall and Aspen Grove. We are gonna be putting together a guide that will have all the information on these local sites that are on those tour and that are not on the tour. So that we're able to teach people about our history. One of the things that I hear a lot when people come to Belle Grove to visit us is, "Oh my gosh, I didn't know you had this much history here." So I'm proposing that we put this together as a yearly event, not to benefit Belle Grove and not to benefit the James Madison Belle Grove Foundation. I'm just doing the leg work. All the money that we make for this will go back to a community charity. It's a community outreach. It's nothing about Belle Grove. We're just gonna be a part of it. So those are what I have available. Oh, one other thing I forgot. We are bringing in Caroline County and we are bringing in Westmoreland County. Caroline County, Port Royal is gonna do a walking tour on Thursday and Sunday, and they're gonna open up their museum, their portrait studio, and their medicine museum, as well as putting together driving tour and Bowling Green. And we've got three locations within Westmoreland County that are willing to look at opening up as well. We're bringing them in, not so much that we want them to be a part of this because we're supposed to be King George, but because we wanna make enough money that we have something to give to the charities. So it's our first year, we're really not getting a lot of lead time to bringing them in just this year, and then it'll go back to being King George again.

1:05:19.3 Chairman: And as I'm reading along, the tickets are \$150 per person?

1:05:24.8 M. Darnell: After looking at our list and stuff... Sorry about that. I don't think we're gonna be able to get a \$150 out of it. I think we're gonna have to drop it to \$75 for the first year because we've only got so many sites who are willing to actually open the door and let people go inside. Grounds, anybody can do at any time, so I don't wanna have a bad taste in people's mouths for the first year. So we'll probably drop it down to \$75 so that we can get more people here, and then we'll look at getting more sites opened up next year and upping the price at that point.

1:05:56.6 Chairman: So the folks that would have the tickets would go to place X, Y, Z, show their ticket to be able to get in or get onto the grounds, a ticket, something?

1:06:04.2 M. Darnell: Correct. They'll have a ticket that they have to present when they get there to show that they have purchased their tickets. When someone purchases tickets, they'll purchase it through the James Madison Belle Grove Foundation Square, 'cause it's already set up, it's ready to go, all they have to do is plug in the tickets. Then we can also track who's coming, where they're coming from, how many tickets we have. So I can produce an actual report that I can bring back to you and show you how well it went. And then we'll take the address and send them the booklet, map and the tickets to use during that week.

1:06:41.6 Chairman: Okay, thank you. Anyone else with questions? No questions? Mr. Granger?

1:06:49.3 R. Granger: No questions but that sounds awesome. Thank you.

1:06:54.9 Chairman: Okay. Do we have a motion?

1:06:57.5 A. Cupka: I'll move to approve the Doors to the Past: A King George Tour of Historic Sites grant application in the amount of one... I'm sorry, \$10,015, did I get that right, as presented.

1:07:19.3 C. Binder: Second.

1:07:20.4 Chairman: Alright. We have a motion properly seconded. Any discussion? Seeing none, all in favor?

1:07:29.6 C. Binder: Aye.

1:07:31.0 TC Collins: Aye.

1:07:31.7 A. Cupka: Aye.

1:07:32.0 R. Granger: Aye.

1:07:34.9 Chairman: Chair votes aye. Motion passes. Thank you.

1:07:39.3 K. Wilson: Thank you.

1:07:46.8 Chairman: We don't have anything for discussion items. And moving to 315, county administrators report.

1:07:58.9 C. Miller: Okay. So a number of items on there. First of all, status of the resiliency plan. So staff is coordinating with the folks from the Berkeley Group to prepare the grant and we have a meeting with them here, later this week. So we are moving forward and as per your direction. And so hopefully, we'll get that resolved here next month, but that is the... That's basically the only status that we have at this time. The other item on there is a proposed joint meeting with the board of directors and service authority. I will, as I informed service authority earlier, we'll get an agenda out here this week, and again, as the discussion, as Ms. Binder indicated, it's a proposal in terms of bringing the service authority under the county's umbrella and having it be a County Department, a Public Utilities Department, and that's just a proposal at this time, and that's what this meeting is all about, is to get two boards together to discuss the issue and determine their next steps, if there are any.

Budget work session. Just reminders, every Wednesday. Tomorrow night is 6:30, here. Then we'll meet on the 23rd, and you will have the school board coming on the 30th of March. They have to make a formal presentation of their proposed budget by the 31st, and then obviously we would then be working with the entire budget process in April. And obviously, the concerns are, "What happens with the fact that the state has closed their session without coming to agreement on their budget?" And they're gonna set up a special session for the 27th of April, I assume, to take on that matter. And so hopefully, we'll know some things shaping up. I think the one thing that we are trying to find out is, things like the Comp Board and some of the other formulas that affect all municipalities and all counties and townships, how those things are gonna be provided to us. They may not necessarily be tied to the budget, but most likely they are. I think the big impact on the delay is obviously what the school board... What their formula will look like and what their budget will look like, but we will continue to keep you apprised of that.

The other item on there is, and Supervisor Collins had referred to this, obviously, at the last board meeting, he made a FOIA request, and you have the information at your desk that is inclusive of a number of documents. One is the actual request by Supervisor Collins. The next is the email that... Excuse me, the letter that Ms. LaWanda Smith provided to Mr. Collins. LaWanda Smith is, as you recall, the dully appointed FOIA officer for the county. This has been in place for a number of years, and it certainly is something that the boards have given her that authority back many years ago, and she continues in that position. The next item that's attached is a board agenda item from the 21st of August of 2018, which spells out from Dr. Young, his recommendations about the King George County FOIA policy, and to authorize the county administrator to post that summary on the county website and to enforce this program. And I believe that one of the notes that he included in there was a key tenet, "A key tenet of the policy includes charging fees to FOIA requests. This would allow the county to recoup the resources and staff time invested in fielding a request." And I think the last thing that was included on there was just a... In this packet, was an email from our county attorney to Miss... To myself, but also to Ms. Smith, indicating the nature of the way the FOIA policies are handled in the state and the way that... What governs the application of a fee or not to have a fee and who can be charged a fee and whatnot, that is set by the FOIA policy council, and so she wanted to provide that information.

I just wanna just point out that Mr, or Supervisor Collins has obviously made that request, to waive the fee. I am bringing this to you at this time, because it's a board policy and it would not be in my purview or my authority to make any kind of changes or to waive that fee unilaterally on my authority. It would have to be something that would come to the board. As I indicated, again, I think Ms. Smith needs to be understood, is the FOIA officer. She has been serving in that capacity and was serving in that capacity prior to my arrival. I have not changed that by any means. I did send an email obviously to the boards of the service authority, the board of directors and to you all, board of

supervisors, which was in keeping with the existing procedures, whereby previous administrator, Dr. Young, sent similar emails to the board and informing them that there was a FOIA request that an action's relevant to those texts and emails.

And so, I just... I want that clear. And I think Supervisor Collins had pointed out that there was an email that I did provide and that was just to let you know how the emails were going to be handled. And that was why Mr. Dines, who was our information technology director, he would then make that search according to this FOIA request, which was January 1, 2022 to March 1 of 2022 for Service Authority Board of Directors and for the county administrator and for the Board of Supervisors. So he has sent that email or he has conducted that evaluation. I then sent the email, obviously, that included about the text messages and what you need to do, and to submit that information to Ms. Smith, who would then assemble those. The process, the way it works, I think it's very important, is the FOIA officer works with Mr. Dines, in terms of this, and this type of a request, and Ms. Lackey, and they determine an estimated budget. And that is where the \$439 fee was derived. It's based on the work estimated to take place, to comply with the request that was made.

I will point out, and Mr. Collins, Supervisor Collins did point out that he has paid the fee, but again, he's requesting a waiver. And again, as I indicated, that's something that I don't have... That I believe I do not have the authority to make that kind of a waiver, so that's why it's here. I don't know how it needs to be handled. You can take action tonight on it, or you can do whatever you want to do with it, I'm just providing it as information. The next item on here is the employee hires and anniversaries. And you can see, we had our treasurer, Randy Jones, was here earlier, 23 years with us. And he has been with the Treasurer's Office for all that time. And we have a number of other employees that are part of this organization and are excellent examples of service. We have Ryan Portner, who's in the audience, who's with the service authority. Wave your hand, Ryan. He is six years with the service authority, so we're very happy that Ryan's here. I think that's all the... Unless there's a... Is there additional people, Chris? I don't think there is.

Okay. Was that all of the agenda items? So I do have two more items. First of all, to let you know that Jeff Jenkins, our Director of Landfill and Solid Waste is leaving us, April 1st. He's taking a position with the Spotsylvania County Department of Solid Waste. I have already moved up his number two, who was Mike Newchok, and he will start effective April 2nd. And Mike is excellent and does an outstanding job of serving in the capacity as the number two, or the assistant director, and now he'll have that opportunity to move up to the director spot. So our goal will be to have a seamless process for you. Last item I would mention is, I sent an email earlier to you all today about the declaration that President Biden gave in terms of the winter storm. I do have Chief Moody here. I asked him to be here to let you know kinda what we can expect and how that works and what we'll be doing. So I'll let Chief kinda give you an overview.

1:18:43.4 Chief David Moody: Thank you, Mr Miller. Mr. Chairman, members of the board, good evening to you. As Mr. Miller stated, we learned last week that the president had approved a presidential disaster declaration for our January 2nd and 3rd snow emergency. I think anybody here that lived... That was in King George County during that week would certainly say that it was a disaster. FEMA has forwarded the application to the President, he signed off on it, and so what has been approved is local recovery efforts in the areas affected by those winter storms. King George was one of the 27 counties. There were 27 counties and one city that were approved in that disaster declaration. That one city was the city of Fredericksburg. So kind of a little bit of next steps going forward. There's still very little details involved. One of the good things is is that staff over that timeframe had started collecting valuable data. That data has been captured. We have submitted initial damage assessment reports to the state. We will communicate with the Virginia Department

of Emergency Management, which is essentially the state-level FEMA, if you will. We will submit a public assistance application with reporting. Typically, under these declarations, we will submit our projects, we will submit a dollar threshold with those projects, and then FEMA will approve them or deny them or provide... They'll need further feedback and they have questions on those projects. Typically, under presidential disaster declarations, the cost sharing in that is 75%. The federal government will provide 75% of those funds. There is also a 15% typical match that the state will put forth and then a lot of times the local match will be about a 10%. Well, we've already paid that. Most of that's been in payroll expenses. Just to touch on it just a little bit further, any time you have a disaster declaration in your community, you also have the opportunity for future hazard mitigation grants, and we have received hazard mitigation grants in the past, and most notably, one of our largest hazard mitigation projects is just wrapping up and just got complete, and that was the Fairview Beach erosion project, beach erosion. So that had a huge impact in our community, for the people that particularly live in Fairview Beach. But more will come about. Stay tuned and I'll certainly certainly update Mr. Miller and also... And we'll go throughout this process and hopefully bring back some money, funding back to the county. Any questions?

1:21:55.0 Chairman: Thank you, Chief. Any questions? Are we done with the snow for the year?

1:22:01.3 Chief Moody: I hope so. It's looking good.

1:22:06.4 Chairman: Thanks.

1:22:08.3 Chief Moody: Thank you.

1:22:08.8 TC Collins: Mr. Miller? Mr. Chairman?

1:22:11.4 Chairman: Mr. Collins?

1:22:13.8 TC Collins: So for debate and discussion, I'd like to make a motion that the \$439.30 for the FOIA request be waved fees for myself.

1:22:24.9 Chairman: I wasn't there yet, Mr. Collins. Chief was still there and I wanted to make sure Mr. Miller was done, and I was gonna address that here in just a second. Mr Miller, were you finished with...

1:22:35.7 C. Miller: The only thing that I would add and I didn't include it on the FOIA request was that we are now working with the materials to assemble those and then to provide them to Mr... To supervisor Collins, as per his request. So that's the next step and I believe that comes tomorrow, I think is under the guidelines in terms of the deadlines that we have. So I just wanted to... I didn't get that included, I just wanted to make sure that everybody knew that.

1:23:01.0 Chairman: Okay, thank you.

1:23:04.3 C. Miller: That's it.

1:23:04.8 Chairman: Okay, thank you. What would the board like to do with Mr. Collins' request?

1:23:14.2 A. Cupka: I'll second his motion in the interest of entertaining discussion.

1:23:21.7 Chairman: Okay. We have a motion properly seconded. Do we have discussion?

1:23:29.2 TC Collins: I'm very familiar with the FOIA laws and I understand that when a citizen requests information from the government, they have rights to the FOIA. So I spoke with Ms. Lackey in regard to this, and that's the legal opinion you have in front of you, about a citizen. So I am a citizen but I also am an elected board member. When an elected board member requests information and doesn't receive it, how do you get the information? I asked Ms. Lackey that question. She says she doesn't know. So the only other means to receive the information was through FOIA. I would say that... I would suggest to my colleagues that if you request information from the county administrator or any other place, that if I'm paying for these requests, then you should too. So I don't think that we wanna start that type of thing. I think I should be able to get the records and be it is that.

1:24:39.8 Chairman: Anyone else? Ms. Cupka?

1:24:42.7 A. Cupka: Yes. Mr. Chair, thank you. So I would note, I requested a copy of Mr. Collins' FOIA request dated March 1st, 2022 that was provided to the county attorney at that public meeting. There are two boxes that are checked and one box that is checked says, "In order to help to determine my status to assess fees, you should know that I am an individual seeking information for personal use." So that to me seems to be at odds with the request as a duly elected member of the board of supervisors, until this was presented in a public meeting, I had not received a request from Mr. Collins for any of my emails or frankly, any information, to my knowledge. I feel like there was a... If the information was desired, I feel like maybe there was a different way that someone could have gone about acquiring the information. I know, for the service authority board, I mentioned during my report that I did call staff on Friday and asked questions and then sent an email to Mr. Miller, asking for information that was then provided to all members of the service authority board. I would also note that when the FOIA administrator sends the response, the response dated March 8th, there is a sentence at the bottom that says, "If you would like to narrow the scope of your request by timeframe, subject or other variable, please also let me know, as that may reduce the associated costs." We've been informed that then, there was a request, not from a county email address, but from a personal email address, requesting a waiver of the fees. So I'm just not clear if this is for personal use, because it looks an awful lot to me like there's some indication that it is based on the fact that a personal email address was used, as well as the box was checked on the original form that was offered to the county attorney. I don't see anywhere where the individual took Ms. Smith up on the offer of narrowing the scope of the request by timeframe, subject or other variable. And to my knowledge, the FOIA request hasn't been rescinded, and I just feel like there was another way to go about getting this information from all of us and just ask.

1:28:00.1 TC Collins: I did.

1:28:01.2 A. Cupka: So that's where I'm at.

1:28:01.8 TC Collins: So Mr. Chairman, may I have the floor one more time, please?

1:28:06.3 Chairman: Just one second. Ms. Binder?

1:28:11.2 C. Binder: Let Mr. Collins go first. I'm still looking at this for a second.

1:28:15.6 Chairman: Okay. Mr. Granger?

1:28:19.7 R. Granger: I will just also share that I never received any correspondence from Mr. Collins, asking for my emails or my texts, in this format. So the first I saw of it was through this FOIA request. If you reach out to me, Mr. Collins, I don't mind sharing information. If you're gonna ask me blanket amount of information for just months and months, any correspondence between me and board members on texts or anything, I would ask you, "Hey, what are you looking for? What can I help you find? I don't mind sharing information." But if you want me to produce documents like that, then yeah, I think that might be more of a FOIA request, and it goes down this path and it has expectation that there would be a task that would go with collecting all that information, 'cause it takes time from the staff to do that.

1:29:10.0 Chairman: Thank you. Okay, Mr. Collins.

1:29:12.8 TC Collins: So, first off, the requester in the FOIA doesn't need to tell you why they're getting the information. It also states in the FOIA law that the people providing the information can ask to have the scope narrowed. I didn't want the scope narrowed so I didn't respond to that. I didn't respond that I requested a waiver that I did in the form. So to Ms. Cupka, if you can tell me a different way that I could have got this information, 'cause I asked for it, and I've never got it, and I can give you example after example, and so can you... If I can't get this information through the county administrator, how can I get it without a FOIA? Tell me how I can do it.

1:30:07.0 Chairman: Well, Mr. Collins, I think you've only asked me for one thing, that was for a budget information, which we don't have yet. That was December, maybe... No, I guess you weren't there yet, but you were asking for the budget, I don't have that information, none of us have that information 'cause we won't have that information until April or May. You never asked me for emails until tonight. You asked me for some information about the hunting ordinance and tomorrow I will send you emails from Mr. Fight, Sergeant Spokasey. I don't have emails, but I have phone calls to Sheriff Giles and Sheriff Dempsey, and I will most gladly send those to you tomorrow. I've asked over the last couple of years, staff members, two county administrators now, county attorneys, and I've asked for information, I've always gotten what I've asked for, unless they don't have it. Sometimes they say, "We don't have that," or "Let me get that to you later on," because they just don't have it at their fingertips or maybe they may not know it. But I've never had a question, maybe I'm asking the wrong questions, but I've never had a question that I asked that I didn't get a response to or answers. But I will be, as Mr. Granger said, if you need an email about whatever, if you didn't get it, I'll be more than happy to share it with you. I know you were talking about the Caledon letter, I think, that we all got and you got a copy the day of the meeting. You can always... If you see something in the board packet that you don't have an answer to, you can always reach out to any of us or staff. And if you don't get an answer from staff, by all means, reach out to the other four of us, and if we have an answer for you, I'm sure we will share it for you.

1:32:11.6 TC Collins: Well, there's been communications between board members in regards to specific subject matters that I find out the hard way. I wanna have the information that the rest of you do and therefore, that's why this FOIA is, 'cause I want to see the information that's been shared with you that has not been shared with me. I can give you a couple of examples of the information that wasn't shared with me, or other people that were privy to the information that I wasn't privy to. But the point of the matter is, this is in front of you to obtain information. This is not some political

utter witch hunt. This is purely to get information, and when I ask for information, I don't get it. I'm not asking you for information, I'm asking him for information. And in order to know that information, in order to get this, I have to get the communications between you and each supervisor member.

That's why that comes into play. If you can tell me a different way I can get this information. I've asked for it and asked for it and asked for it several times and never received it from the time before I got elected to the time I've been here for a couple of months. I don't wanna be spending the rest of my... This is \$439 out of my retirement. I get paid \$15,000 on the Board of Supervisors, and I guess I got \$14,500 left for FOIA requests. I don't know. But if I'm paying, I think you all should pay too.

1:34:05.2 A. Cupka: May I, Mr. Chair?

1:34:05.5 Chairman: Sure.

1:34:08.6 A. Cupka: I just wanna make sure that there is an understanding. I will give a good example of emails that were between Ms. Binder and I last month with regard to a memorial commendation for one of our constituents. And we can't email... You can't... A member should not... It is not a best practice to hit "Reply All" to all five of us because when we do that, if more than three of us... I'm sorry. If three of us are on the email, that creates the appearance of a meeting, an illegal meeting. So it's simply not practical for one of us to send an email out to everybody on the board, and frankly, there are going to be initiatives that Ms. Binder and I work on because I'm the At Large Supervisor and she's the Shiloh District Supervisor, and maybe it's dealing with one of our constituents. So I just... Communication is a two-way street, and just pick up the phone, and then I would defer to Ms. Lackey with regards to my own personal, and that's my own personal understanding of public meetings and five board members all talking at once in the same email thread and the appearance of a meeting. Thank you.

1:35:44.3 TC Collins: I understand what a public meeting is and I'm not...

1:35:48.1 Chairman: Mr. Collins, can you hold on for a second?

1:35:51.6 TC Collins: I need to address her statement, as if I don't know what I'm talking about.

1:35:56.2 Chairman: Right. In just a second. Ms. Binder also has a question, and I will get back to you here in just a second.

1:36:01.6 C. Binder: I have two questions. One is, how is the hourly rate decided on? 'Cause they have different numbers.

1:36:08.6 C. Miller: That would be based on Mr. Dines' salary, an hourly...

1:36:12.8 C. Binder: Okay, so it's based on...

1:36:14.1 C. Miller: An hourly break down of his salary and an hourly breakdown of Ms. Smith's salary and an hourly breakdown of my salary.

1:36:21.3 C. Binder: Okay. And then another question, and I understand what Ms. Cupka said, 'cause I will tell you in my first year on the board, I would sometimes accidentally hit "Reply All"

and I had a former colleague who would always certainly speak to me about, "Now you've created an open meeting and you can't do that." So if there is a better way that we can share certain information so that everyone is informed, and I will give an example of, with Purkins Corner because I felt, and I expressed this to Mr. Miller in person, that I should have been more informed about it, and what is a better practice in the future of informing the person who's the supervisor in that particular district when there is an issue. So maybe we all can work together as a board to better communicate certain issues that affect all five of us. But I do understand there are certain things that you can't hit "Reply All" or all five. So that's the comment I wanted to make, 'cause I remember when I was first on the board, I got the explanation a couple times by a former colleague that that was, "Now you started a meeting." But maybe there is a better way that we could do this in the future so that one board member does not feel that they are not given the information, that they're in the dark. That's all I have to say.

1:37:37.1 Chairman: Thank you. Mr. Collins?

1:37:40.1 TC Collins: To suggest that I don't understand what open meeting laws are is a farce. I was on the school board for eight years and communicated with all the members on the school board as chairman, as a member. You don't hit "Reply All," you send one to each individual. Yes, it's more time-consuming, but that is how the law reads. So that's my debate in regards to that.

1:38:05.7 Chairman: Mr. Granger?

1:38:07.9 R. Granger: Yes, thank you. I would just say, in regards to asking for communication between two individuals, I wanna go to Mr. Miller and say, "Mr. Miller, could you please provide me information about the correspondence between Ms. Cupka and Ms. Binder?" I would go to Ms. Cupka and Ms. Binder. I would expect that if someone asked about my correspondence, they'd reach out to me. Mr. Miller is an employee of the board, and so he serves us, but at the same time, his duties are to execute the business to the county, the day-to-day business. And so it's a very full job, and so I think all of us need to be cognizant of, yes, he works for the board, he has duties though that take a lot of his time, and if we're expecting him to now start collating information and run down, "Hey, I want you to go find out all the information about these people who communicated together," even though you haven't been in the loop maybe on some of those communications, I just don't think that's the right route.

I would recommend you reach out to the people that you wanna find the information out from. And like I've said, in the board request there's a request to say, "Hey, I want all the communication between any board members by email or text," and so that's a very big ask. And so there's no scoping of that. And as a board member, I don't understand what the goal is, what we're trying to look for. That's a FOIA request as opposed to trying to do the day-to-day business of the county. I just would ask Mr. Collins in the future, you said, how to go about doing this? You didn't ask me for this information. I've never been asked for this information. I would recommend that you reach out to the board members when you wanna know about what they're corresponding, and I think that's probably the best way to go about trying to find out what's going on, as opposed to reaching out to Mr. Miller and saying, "You go to all of them and tell me what they're saying to each other." 'Cause that's what it sounds like to me.

1:40:02.8 TC Collins: Mr. Chairman?

1:40:05.4 Chairman: Mr. Collins.

1:40:07.8 TC Collins: The specifics is in the FOIA, not... Don't just take out part of the sentence and say, "To and from..." It says, "To and from any member of the Board of Supervisors, to each other or the County Administrator or the Water Authority Board of Directors." That's what it says. And in my last meeting, you will recall that I think there's a transparency issue. And so I don't think it's transparent 'cause I'm not getting the information. I didn't know that I had to go around. I thought that I would be given information, not have to track all the information down myself. I didn't know that's how this worked.

1:40:53.4 Chairman: Well, I know when I have a question on something, I will go to either Mr. Miller or to colleagues, and you have to, at times, you do track down your own information. You've got certain questions and then you go to the correct person to get the answers to. So that happens quite often.

1:41:13.1 TC Collins: How do I know who has the answers? I have to track down... So I asked the county administrator in regards to something and I don't get provided it. I do do my own research on the issues, but issues are being discussed that I don't have the privy to that I think I should be as one of five members.

1:41:41.7 Chairman: Okay. Anything else?

1:41:43.5 C. Binder: I do have a question, Mr. Chair. Ms. Lackey, how common, or do you know how common do FOIA requests come from other supervisors and waivers?

1:41:57.4 K. Lackey: I'm sorry. I missed the... The second part was how often are they...

1:42:01.7 C. Binder: Yeah, is this a common practice? 'Cause this would be my first time on a board.

1:42:10.1 K. Lackey: It's hard to say because I think oftentimes localities have a policy that is uniform as to the general public, and there are, if you will, a little bit of licenses generally provided to elected officials. Some of the things that other supervisors have mentioned, if you're asking for a follow-up or backup for an agenda item, that's usually provided as a matter of course. This one is a little more unusual because of the manner it was presented and the scope of what it entails. It entails a lot of search. And for that reason, it's perfectly appropriate for the county to have fees imposed. Those fees are actually discounted, if you will, because they don't include the time of each supervisor to search through their own text messages.

I understand Supervisor Collins has an objection to them doing so, but as far as I know, there's no way for IT to search text messages, at least for the scope of the timeframe that's required. That part of the search would be performed by the supervisors, basically free of charge, but it would still entail a lot of staff time to compile all the email records and whatever other written records there are. I guess it's an order of magnitude. I think most of you, as some of you have indicated, you've asked for things from the county administrator, and typically if that's a record that exists and can be provided, that's generally provided as a matter of course. But when there's something that's as broad as this, it is a little bit of a different animal. And in the absence of a policy, I think that Mr. Miller was correct to have staff produce a cost estimate.

1:44:05.0 C. Binder: Is this something that should have a policy to it, or is this just a very odd

situation?

1:44:11.9 C. Miller: If I may answer, you do have a policy in place from August of 2018. The August 21st meeting is... It was my understanding the former administrator, Dr. Young presented that to you. And there had been subsequent FOIA requests made by individuals, so I don't... I assume you have a policy. I don't... It doesn't state the rates or anything like that, but it basically says you have a right to...

1:44:39.4 K. Lackey: I look to see the...

1:44:40.3 TC Collins: Point of order, Mr. Chair.

1:44:43.0 Chairman: Just a second, Mr. Collins.

1:44:44.7 TC Collins: According to Roberts Rules, a point of order will be handled immediately.

1:44:49.2 Chairman: Okay, Mr. Collins, go ahead.

1:44:51.4 TC Collins: So this debate is a debate of the board. So unless a specific question is asked to Mrs. Lackey or Mr. Miller, they should stay out of the debate.

1:45:05.5 Chairman: Okay. So I'll have a question for Mrs. Lackey, directly to her. So if I'm reading this email that we all have copies of here, it does say that if we did consider waiving cost to an elected official, that in the future we could not bill the public for a FOIA request? Is that correct in my reading?

1:45:34.7 K. Lackey: Right. So I think one of the reasons why it's difficult to pin down a policy from another jurisdiction, part of it is because the more liberally you allow an elected official to make FOIAs, they can effectively make FOIAs on behalf of members of the public, and then you're defeating your whole cost structure for having fees. And that could happen naturally. It could be, one of you mentioned something, I would like to see... "Mr. Miller, I'd like to see this document," and someone hears that on the record and they say, "I would also like that document." Well, then they get that document for free. And that's not necessarily a bad thing when we're talking about a document that's readily at hand. So it's a matter of policy as to the scope of a request, the... Hanover County has a policy, they waive the first 60 minutes of search time. City of Chesapeake waives the first 15 minutes of search time, as to any member, any FOIA requester. But those are just matters of policy. So that's a matter for the board as a whole.

1:46:34.7 Chairman: Okay, thank you. Anybody else have anything, so we can move along? Alright. Well, we have a motion that was properly seconded. All in favor?

1:46:51.3 TC Collins: Aye.

1:47:01.2 Chairman: All opposed?

1:47:03.6 C. Binder: Nay.

1:47:04.7 A. Cupka: Nay.

1:47:05.7 R. Granger: Nay.

1:47:05.8 Chairman: Chair votes nay. Motion is not approved. Okay, administrator's report, information items coming up. Mr. Miller, we don't have any... Just these information items?

1:47:35.0 C. Miller: That's it.

1:47:35.2 Chairman: Okay. So we are finished for that. And so do we have a motion? Yes, we do. We got 'em.

1:47:53.1 A. Cupka: I'll move to adjourn to Wednesday, March 16th at 6:30 PM in the boardroom.

1:48:00.1 C. Binder: Second.

1:48:00.3 Chairman: All in favor?

1:48:02.0 C. Binder: Aye.

1:48:02.4 A. Cupka: Aye.

1:48:03.5 R. Granger: Aye.

1:48:05.3 Chairman: Chair votes aye.

1:48:05.4 TC Collins: Aye.

1:48:06.1 Chairman: We are adjourned.
